Instructional Calendar
Math- Katie Smith
2022-2023

8th Grade
August- Rules and procedures, Baseline testing, Exponents/Scientific Notation
September-Real Numbers
October- Multi-Step Equations and Inequalities
November- Linear Relationships and Slope
December-Functions
January- Solving Systems of Linear Equations
February- Angles, Triangles and Pythagorean Theorem
March- Transformations, Congruence and Similarity; Bivariate Data
April- Probability
May- FAST Review/ Testing

7th Grade
August- Rules and procedures, Baseline testing, Proportional Relationships
September-Solve Percent Problems
October- Rational Numbers
November- Algebraic Expressions
December- Equations
January- Inequalities
February- Area
March- Circles and Cylinders, Statistical Measures/Displays
April- Probability
May- FAST Review/ Testing
